PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 2+ years of experience architecting and shipping 25+ Flutter codebases, including 10+ production apps live on Google Play reaching 8K+ active users. Specializes in Clean Architecture, Cubit state management, and REST API integration, with a track record of building coordinated customer / driver / provider app ecosystems for ride-hailing, delivery, and marketplace platforms.

PROFESSIONAL EXPERIENCE

Flutter Developer — Nahr Development Cairo, Egypt · Oct 2024 – Present

- **Architected and shipped 25+ Flutter codebases**, including **10+ apps live on Google Play** (Motah, Primo, Fresh Market, Rabbito, Car Brake & more) across ride-hailing, delivery, e-commerce, and on-demand verticals.
- Reduced average UI rendering time by **~30%** through performance profiling, widget tree optimization, and lazy loading strategies.
- Integrated Firebase (Auth, Firestore, FCM) across 5+ apps for real-time sync and retention-driving push notifications.
- Delivered pixel-perfect UI for 10+ apps by converting Figma designs into responsive Flutter interfaces, achieving **95%+ design fidelity**.
- Integrated Moyasar Payment Gateway and Google Maps & Location Services via reusable integration layers, and collaborated cross-functionally using Jira, Trello, and GitHub — maintaining a **100% on-time release rate**.

TECHNICAL SKILLS

Mobile Development	Flutter, Dart, Android SDK, Cross-platform Development
State Management	Cubit, BLoC, Provider, Flutter Riverpod (familiar)
Architecture	Clean Architecture, MVVM, Repository Pattern, Dependency Injection
Backend & APIs	REST API Integration, Dio, Firebase (Auth, Firestore, FCM), JSON Parsing
Payments & Maps	Moyasar Payment Gateway, Google Maps API, Geolocation Services
DevOps & Tools	Git, GitHub, Postman, Jira, Trello, Figma, Android Studio, VS Code
Testing	Unit Testing, Widget Testing, Flutter DevTools, Performance Profiling

KEY PROJECTS – PRODUCTION APPS (GOOGLE PLAY STORE)

- Motah** — car maintenance booking with service selection & technician dispatch. (Flutter, Cubit, Firebase FCM)
- Primo** `customer+driver` — ride-hailing & last-mile delivery with live tracking. (Flutter, Cubit, Google Maps, Firebase)
- Fresh Market** `customer+driver` — multi-vendor grocery platform with catalog & order tracking. (Flutter, Clean Architecture, Firebase)
- Car Brake** `customer+provider` — on-demand car valet, washing & parking with QR handoff. (Flutter, Cubit, Firebase)
- Rabbito** — multi-vendor marketplace & delivery app with in-app payments. (Flutter, Cubit, Moyasar, Firebase)
- NAS Sports** — sports academy app: player schedules, coach profiles, skill tracking. (Flutter, Cubit, Firestore)
- Etqan** — production Flutter app shipped for Nahr Development. (Flutter, Cubit, Firebase)
- Plus 15+ additional apps** across ride-hailing, delivery & marketplace verticals (customer/driver/partner apps) — TaxiQ, Rabbit, Q Service, OctoBoss, HiPro, Nagaa, Turtle Delivery, WAWAN, Sonic, Iplace.
